Clinical Practice

# Who We Are

**Mobilis Rehabion Healthcare Pvt. Ltd.** is committed to redefining orthopaedic care through innovation, comfort, and clinical excellence.

## Our Vision

To become a leading provider of patient-centric orthopaedic solutions.

## Our Mission

To deliver high-quality, doctor-designed products that improve outcomes and patient experience.

# Who We Are

## Designed by Orthopaedic Experts

Our Products are clinically validated and developed by experienced orthopaedic professionals.

## Focus on Patient Comfort & Compliance

We prioritize ergonomic design and ease of use to enhance healing and ensure better adherence.

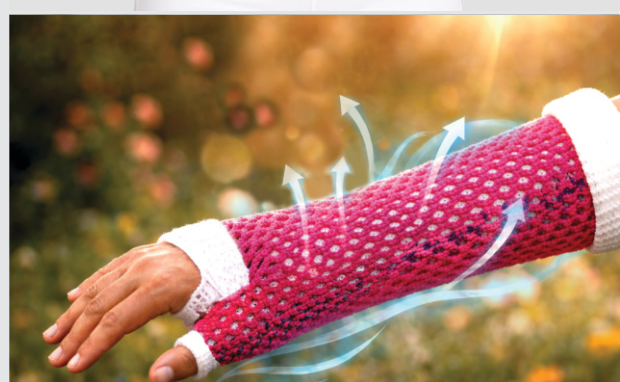

## Premium Quality Materials

We use high-grade, skin-friendly, durable materials for superior performance and safety.

## Innovation-driven product pipeline

We continuously invest in R&D to bring innovative solutions that meet evolving clinical needs.

# VENTICAST™

## Next-Gen Breathable Cast

Engineered for superior ventilation, comfort, and clinical outcomes.

### Clinical Advantages

Better compliance

Reduced follow-ups

Premium alternative to conventional casts

## Thoracic Support

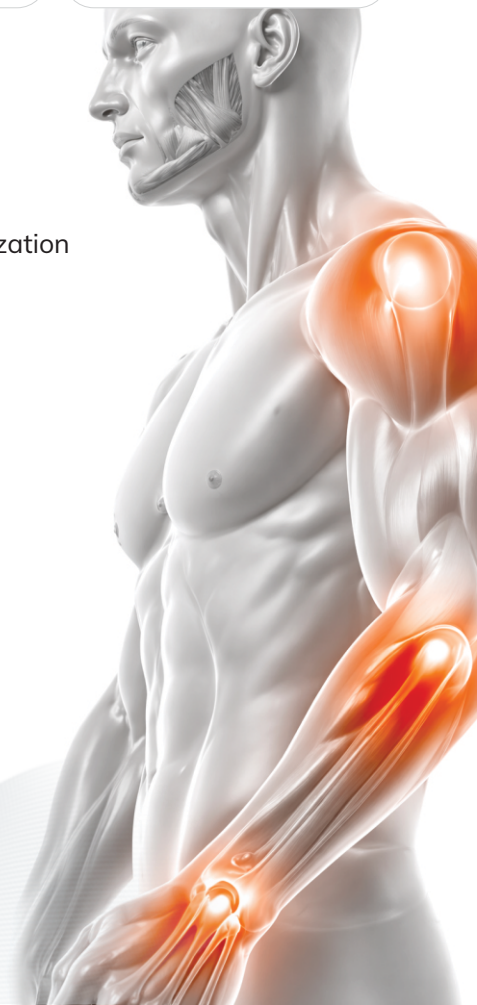

## Key Features

- ✓ Anatomical support & immobilization
- ✓ Lightweight & patient-friendly
- ✓ Easy application & adjustment
- ✓ Ideal for OPD & post-op care

## Quality. Innovation. Care

Support for every step of recovery.

Thoracic support, including braces, posture correctors, and seat cushions, stabilizes the upper-to-mid back (T1-T12) to alleviate pain, correct kyphosis, and improve posture. These devices help prevent slumping, reduce muscle spasms, and support recovery from injury or surgery by promoting proper spinal alignment.

At Mobilis Rehabion, our goal is simple—enhance patient comfort without compromising clinical outcomes. Every product we design is rooted in real-world orthopaedic challenges and engineered to deliver better healing experiences.
